Congress of the United States
House of Representatives
COMMITTEE ON ENERGY AND COMMERCE
2125 RAYBURN HOUSE OFFICE BUILDING
WASHINGTON, DC 20515-6115
Majority (202) 225-2927
Minority (202) 225-3641

The Honorable Alex M. Azar II
Secretary
U.S. Department of Health and Human Services
200 Independence Avenue, S.W.
Washington, DC 20201

Dear Secretary Azar:

Pursuant to Rules X and XI of the U.S. House of Representatives, the Committee on Energy and Commerce is examining the operations of the Office of Refugee Resettlement (ORR) within the U.S. Department of Health and Human Services (HHS). Specifically, the Committee is evaluating ORR's operations related to the management and treatment of unaccompanied alien children (UAC), including the reunification of children with their parents.

We support strong enforcement of our nation's borders. We also support keeping families together, and believe that children should not be separated from their parents. We also seek to ensure that children who are within the custody of ORR—whether because they crossed the border as an unaccompanied minor or because they crossed the border with a family member and were subsequently separated—are properly cared for while within the custody of ORR.

The Homeland Security Act of 2002 transferred responsibilities for the care and placement of UAC from the Commissioner of the Immigration and Naturalization Service to the Director of ORR.¹ UAC are apprehended by the Department of Homeland Security (DHS) immigration officials, but are transferred to the care and custody of ORR and ORR places UAC in the least restrictive setting that is in the best interests of the child.² A number of DHS agencies are involved in apprehending, processing, and repatriating UAC, while HHS is responsible for

the care and custody of UAC. The Executive Office of Immigration Review in the U.S. Department of Justice (DOJ) conducts immigration removal proceedings.³

On April 6, 2018, Attorney General Jeff Sessions issued a memorandum for federal prosecutors along the southwest border that directed “each United States Attorney’s Office along the southwest border—to the extent practicable, and in consultation with DHS—to adopt immediately a zero-tolerance policy for all offenses referred for prosecution under section 1325(a).”⁴ As a result, between April 6 and June 20, 2018, DHS officials referred any adult “believed to have committed any crime, including illegal entry,” to DOJ for prosecution and, if convicted to deportation hearings.⁵ Meanwhile, DHS transferred children traveling with those adults to the custody of ORR. This process resulted in families being separated.

On June 20, 2018 President Donald J. Trump signed an Executive Order stating, in part “It is also the policy of this Administration to maintain family unity, including by detaining alien families together where appropriate and consistent with law and available resources.”⁶ Pursuant to this Executive Order, families will now be detained together by the Department of Homeland Security. Presumably, this will lead to a decrease in the number of UAC transferred to the custody and care of ORR.

As of June 20, 2018, HHS had 2,053 minors separated as a result of the zero-tolerance policy in HHS-funded facilities.⁷ This number represents 17 percent of minors in HHS funded facilities; the remaining 83 percent arrived without a parent or guardian.⁸ According to media reports, many of the children that have been separated from their families are too young to speak, and there are reports of children under the age of one in the care of ORR.⁹ The Assistant Secretary for Preparedness and Response (ASPR) has established a task force to reunify separated children with their families, and we understand that ASPR is working expeditiously on this mission.

The Committee investigated ORR’s management and treatment of UAC beginning in 2014 after the dramatic surge in border crossings by UAC from Central America as well as a series of reports and records that were released by the *Houston Chronicle* regarding allegations

of abuse, including sexual abuse, of minors in HHS custody.¹⁰ According to the *Houston Chronicle*, children and teenagers reported having sexual contact with staff at facilities in Texas, Florida, New York, and Illinois. In 2016, *The Washington Post* reported that, in 2014, ORR placed an unaccompanied child with sponsors in central Ohio who were later discovered to be human traffickers who forced the child to work 12 hours a day on an egg farm.¹¹ The *Associated Press* reported additional instances of abuse after ORR placed UAC with sponsors.¹² In the course of this investigation, the Committee sent three letters to HHS raising grave concerns about the treatment of children while in the custody of ORR, and the then-lack of follow up to ensure that children were cared for properly after being placed with a sponsor.¹³ The Committee also requested documents and answers to detailed questions, and, in 2014, held a bipartisan roundtable for members on issues related to UAC. Given HHS' historical difficulties in properly caring for UAC, the Committee believes that additional scrutiny of ORR is warranted at this time.

To assist the Committee in its efforts, please provide written answers to the following questions, as well as the requested documents, no later than July 20, 2018.
